

CMCP4190 Eddy Probe Mounting Adapter

CMCP offers the CMCP-4190 for probe installations where the shaft is only a short distance from the bearing housing. The probe adapter is a 1/2" or 3/4" NPT threaded on either end for mounting to the housing, and a conduit head. The CMCP4190 is manufactured from Stainless Steel. The ID thread is available to fit the 2 common eddy probe thread sizes. For particularly long probes an optional deep conduit head is available.

| CMCP Part Number | | | | |
|------------------|-----|----------|-------------|--------------|
| CMCP4190 | -XX | O.D. | I.D. Thread | Total Length |
| | 01 | 1/2" NPT | 1/4" x 28 | 1.50" |
| | 02 | 1/2" NPT | 3/8" x 24 | 1.50" |
| | 03 | 3/4" NPT | 1/4" x 28 | 1.81" |
| | 04 | 3/4" NPT | 3/8" x 24 | 1.81" |
